## Selecting Russian

To type in Russian, click on the right of the right of the selected input language at the top left corner of your screen. Then select "**Russian**" from the drop-down list that appears. Please note that after each time you select a language, you must use your mouse to reposition your cursor inside the response box before you can begin typing.

You may also change the selected input language using the key code **ALT+SHIFT**.

## Russian Keyboard

In the diagram below, the letter or punctuation mark shown on the right side of each key (in red) is the character that will be displayed when typing using the Russian IME. (Characters in upper right regions require the **SHIFT** key.)
